

# Claims

- [c1] What is claimed is: 1. A combination candle and incense holder comprising: a vertically disposed base having an inner surface that is configured to be capable of accommodating a candle from the top portion of said base and that is configured to be capable of accommodating a receptacle through an aperture in said base; and a removable receptacle disposed in said aperture on a wall of said base that is capable of receiving an ignitable fragrant solid or an ignitable fragrant oil.
- [c2] 2. The combination candle and incense holder of claim 1 further comprising a receptacle mounted on the top portion of the housing that is capable of receiving an ignitable fragrant solid or an ignitable fragrant oil.
- [c3] 3. A combination candle and incense holder of claim 1 wherein the base is further comprised of an air well disposed in said base for passage and escape of air from said receptacle.
- [c4] 4. A combination candle and incense holder of claim 1 wherein the receptacle has a bowl-shaped configuration.

- [c5] 5. A combination candle and incense holder of claim 1 wherein the base has a square shape.
- [c6] 6. A combination candle and incense holder of claim 1 wherein the base has a cylindrical shape.
- [c7] 7. A combination candle and incense holder of claim 1 wherein the base has a cone shape.
- [c8] 8. A combination candle and incense holder of claim 1 wherein the base has a star shape.
- [c9] 9. A combination candle and incense holder of claim 1 wherein the incense accommodated in said incense holder has a stick shape.
- [c10] 10. A combination candle and incense holder of claim 1 wherein the incense accommodated in said incense holder has a cone shape.
- [c11] 11. A combination candle and incense holder of claim 1 wherein the receptacle is integral to the base.
- [c12] 12. A combination candle and incense holder of claim 1 further comprising a handle disposed on said receptacle.
